Hi everyone.

I am letting you all know that I am selling or winding down my reputable nursery.

I have specialised in growing many rarer lines of perennials, many of which I have propagated. They are often hard to source and not readily available in New Zealand.

Please contact me if you have any enquiries.

Regards

To 1 metre. Architectural plant. Huge, impressive, palmate, wrinkled leaves. The veins and leaf stalks are reddish-brown and densely woolly. In midsummer, the upright flower spikes are made up of white or pink florets. These add drama and definition to gardens in full sun and partial shade. Suits by water, woodland, or in other moist garden sites. Humous rich soil, partial shade to full sun.

<i>Rodgersia podophylla</i>	COLLECT	D	\$15.00
-----------------------------	---------	---	---------

1 metre. Great architectural plant for moist, humus rich soil and some shade. Striking bronze coloured leaves in spring, going dark green through summer, then turning red in autumn. Masses of tiny creamy white flowers, sometimes flushed pink or red.
