

WAKE ROBIN NURSERY

SPRING CATALOGUE

Welcome to my 2021 Catalogue

If you have finished with this catalogue, please pass this onto a gardening friend. If you do not wish to receive this in the future, please contact me. My new website was developed earlier this year.

Wake Robin Nursery is situated in Balclutha, a small town about 80 kms south of Dunedin. The nursery has mainly hardy perennials and potted bulbs. You are welcome to visit by arrangement. Please let me know if you do not wish to receive this catalogue in the future or pass this on to a gardening friend.

Mail Order Terms

There is no minimum order although freight costs make small orders very expensive. Order forms are enclosed for your use. Post office box numbers are not satisfactory. Please include alternatives to avoid disappointment as some plants may sell out quickly.

Postage and Packing . Orders will be sent by Courier. All Rural delivery addresses are \$6.50 extra

Up to banana box size.

South Island

Dunedin \$ 8.50

Christchurch (and Darfield) south \$ 10.00

North of Christchurch \$ 16.00

North Island

Bulbs

Cardiocrinum giganteum COLLECT LATE SEPT TO SUMMER D \$20.00
 Large 5 to 6 year old bulbs. (*Lilium giganteum*, Giant Himalayan Lily). 30 cms long, fragrant, creamy white trumpet shaped flowers, striped or flecked purple-red inside on stems up to 4 metres. Summer flowering. Attractive large heart shaped leaves. Decorative seedheads. Spectacular plants for a woodland type garden amongst trees and shrubs. Humus rich, moist but well-drained soil. Plants die immediately after flowering but numerous offsets are produced which can be removed. Offsets take 5 years to flower. A winter mulch is beneficial to protect new growth. A few are going to flower.

Haemanthus Albiflos \$12.00
 White. 2 to 3 leaves in July 2021. Lovely smooth and shiny leaves, long flowering season and red berries. Dappled shade or in pots. To 25 cms when in flower. Plant with the upper half of the bulb above the soil level. The compact flower heads are up to 5cm wide, consisting of numerous erect, narrow white flowers. The erect stamens protrude conspicuously beyond the tips of the flowers and the anthers turn yellow or orange when ripe. Protect from hard frost – not fully hardy.

Lilies prefer cool soil. Plant Lilies in well-drained soil where they will receive 6–8 hours of sun a day

Lilium Martagon Album D \$12.00
 (Turks Cap Lily). Medium/large bulbs. Species Lily. Strong one metre tall stems with 20 to 30 small tightly reflexed clear ivory white flowers with yellow/orange anthers late spring/early summer. Flower late spring/early summer. Usually require 12 months of 'settling in'. For best results, some grit and a generous quantity of leafmould or other organic material should be mixed through the soil until it is crumbly and open in texture.

“When the groundhog casts his shadow, And the small birds sing, And the pussywillows happen,
And the sun shines warm, And when the peepers peep, Then it is Spring” – M W Brown

‘The glory of gardening: hands in the dirt, head in the sun, heart with nature. To nurture a garden is to feed not just the body, but the soul.’ – A Austin

“And the Spring arose on the garden fair like the Spirit of Love felt everywhere;
And each flower and herb on Earth's dark breast
Rose from the dreams of its wintry rest.”
— Percy Bysshe Shelley, The Complete Poems
